

MEMORANDUM

DATE: September 14, 2012

TO: Council President Tony Young

FROM: Councilmember Carl DeMaio

RE: Ten Principles of Good Governance

I strongly support the ten good governance principles in your September 13th memorandum. These principles set the foundation for healthy working relationships and collaboration between the Council, Mayor and City Attorney's office.

As you note, many of these issues have already been embraced by our City Council. Making government work for -- and serve -- all San Diegans is a major issue facing our city. All things are possible when government is responsive to the people. By following these principles, we will ensure that the City continues to solve problems in a transparent way for the good of all San Diegans.

cc: Honorable Members of the City Council
